

DynaWizard

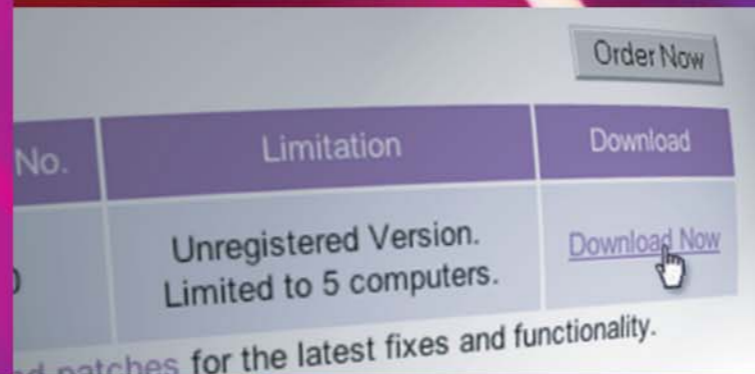

With DynaWizard you wouldn't need to worry anymore!

DynaWizard takes the setup you want and makes it stick, permanently, so you can spend your time doing more important tasks than cleaning up the mess left by all that stuff that goes on when you're not around.

But that's not all, DynaWizard saves you time by giving you the tools you need to make dealing with labs full of computers easier, much easier. Whether it's adding or updating applications, handling different hardware setups, controlling deployment of limited licences or responding to unusual requests from your organisation. DynaWizard is designed from the ground up, not cobbled together from existing products, to do just one thing, managing training room and public access computers.

Get started today!

For more information about DynaWizard, visit www.dynawizard.com and download your trial version of DynaWizard to see for yourself how much time and money you could really save!

What goes on when you're not watching?

Ever wondered how training lab and public access computers get into such a mess? No matter how much time you spend cleaning them up and getting everything just right, as soon as you're not watching everything seems to be back where you started.

Face it, you're fighting a losing battle against:

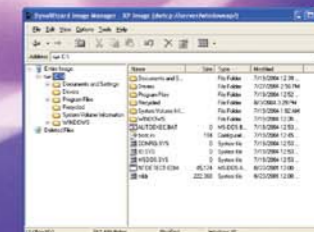

- > Spyware, Adware and Trojans
- > Malicious web sites
- > Pirated music and downloaded software
- > Mischievous students

Wouldn't it be better if the computers could clean up the mess themselves?

DynaWizard Image Manager

DynaWizard System Rebuilder Service

DynaWizard

ACCURATE

> Spyware, trojans, downloads even rootkits, DynaWizard finds and fixes them all in seconds. They can run, but they can't hide!

DynaWizard has so many exclusive features that it is impossible to list them all. Here is a sample of what DynaWizard can do for you. To find out more, download your evaluation copy today!

CONFIGURABLE

> Intelligent defaults, groups with inherited settings, hardware management, custom packages and user management. DynaWizard covers it all and more.

ECONOMICAL

> From as little as \$13.50AU per computer.
> No yearly contracts or renewals.

DYNAMIC

> DynaWizard only looks for changes which saves time and allows your computers to always be correct.

EFFICIENT

> Automatic partitioning, formatting and installation. Go from a blank drive to Windows logon in minutes.

TIME SAVING

> Maintains your computers when you're not there.

AUTOMATIC

> DynaWizard looks after your computers 24 hours a day, 7 days a week.

FAST

> Don't reload or reinstall, DynaWizard finds and fixes all changes in seconds.

SPACE SAVING

> Support multiple setups with a single image.

EASY TO USE

> Familiar Explorer-like interface.
> Step by step wizards to guide you through each task.

RESPONSIVE

> DynaWizard can do an amazing array of things, but if you need more, let us know and we'll try to add it.

FLEXIBLE

> Multi-part images, exclusions, variables and a host of options allow you to design a setup that suits your needs.

ROBUST

> Self checking, automatic updating and secure. DynaWizard has been extensively tested and can handle any size installation from the smallest school to the largest enterprise.

SUPPORTED

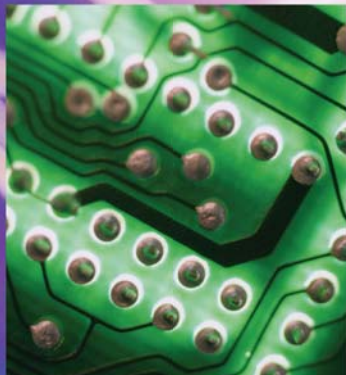

> DynaWizard comes with lifetime support so you'll never be stuck for an answer to a problem.

UNIQUE

> Purpose designed and built to do one task. Not copied from someone else's idea or the latest fad.

COMPATIBLE

> Designed for Windows 95/98/Me/NT/2000/XP.
> Works with all standard applications.
> Your choice of hardware, network and server.

INCREMENTAL

> Need to update something? DynaWizard handles changes as small as a single setting or as large as an operating system, without creating a new image.
